

Melbourne, 1st May 2020

To whom it may concern,

Jorge arrived in Australia in mid-2019, once we saw his portfolio we were pleasantly surprised and did not hesitate to hire him. During this time Jorge adapted very well to the workflow of the company and teamwork with his colleagues. From his beginnings in Dental ED and Momentum Management he showed a positive and proactive attitude that he demonstrated in all his works.

Throughout the time he was in Melbourne, he carried out tasks in the graphic design area in which he created pamphlets, brochures, roll ups and advertising material. In addition, he also worked on advertising videos (motion graphics) and photography for both the company and our clients. He also traveled to different cities such as Brisbane, Gold Coast and Tasmania to record interviews and events.

In short, Jorge is a great worker and we recognize the great creative quality of the projects he did for us. We are very satisfied with the work he did during the months he worked with us and we wish him the best in the future.

Sincerely,

**Emanuel Recupero**  
**Dental ED Managing Director**
